MEMORY LANE

From city condos to rustic cottages, we've seen a lot of amazing spaces in 30 years. Here are our favourite rooms from past issues.

No. 1

"I CHOSE THIS ROOM by designer Angie Hranowsky because I have such a hard time embracing colour — and yet this room does it beautifully. I think it's the ice-cream palette dotted around the room, the crisp white walls and the richness of the mahogany french doors. And that Buddha artwork by Molly B. Right had me at hello"
